

International Secure Credentialing Process

L-1 solutions are modular and can be used alone or together to form a complete identity management system.

1 Remote Services - Reduce wait times by empowering applicants to initiate the enrollment process online or at a kiosk to expedite the in-office experience. Online appointment scheduling optimizes staff operations by reserving times and assigning resources.

- Automated appointment scheduling
- Mobile Enrollment
- Remote applicant self-prep portal
- Self Service Kiosk

2 Enrollment & Front Office Processing - Implement a complete solution to efficiently and securely process applicants. Integrate front office with remote services to accelerate in-office enrollment.

- 1:1 Facial recognition verification
- 1:1 Fingerprint matching
- Automated image capture and applicant enrollment
 - Facial image enrollment
 - Fingerprint image enrollment
 - Iris enrollment

- Automated integrated queuing
- Automated knowledge testing
- Bio-logon
- Document authentication
- Document scanning and archiving
- Enrollment with Hiide® Tri-modal biometric device
- Interim credential
- Mobile capture station
- Road skills testing

3 Back Office Database Management - Provide "behind-the-scenes" database management and transaction processing, including security steps taken to validate an applicant's biometrics, demographics, photo and documents.

- 1:N Facial recognition matching
- 1:N AFIS
- 1:N Iris recognition matching
- Data analytics
- Database management
- Fraud investigation and case management tools
- Gated issuance
- Resource management and scheduling
- Secure inventory management

4 Secure Credential Production - Flexible solutions for any production method of your choice for an ideal combination of security, efficiency, durability and convenience.

- Card personalization
- Central issuance production in a factory/print farm
- Instant issuance for (over-the-counter) production
- Smart card encoding

5 Stuffing & Mailing Services - Insert and mail centrally produced IDs to each applicant's address.

- Insertion of credential in mailer
- Pre-sort if applicable
- Delivery to postal carrier system
- Secure Transfer Service

6 Post Issuance - **Secure Credential Use** - Use the secure credentials with optimal security card design and features for a variety of different applications.

- Border crossing (WHTI, Passport Cards, Passports)
- Government issued credentials (eIDs, Health & Human Services Cards)
- National IDs
- Smart Cards (ExianSmart contactless & contact smart cards) (activation, usage & verification)
- Voter IDs

Inspection Tools - Facilitate inspection of secure credentials to validate the ID's authenticity, and match the person to the ID.

- B5000 for post issuance document authentication
- Biometric matching via Hiide® Tri-modal biometric device
- Fraudulent document recognition training
- Manual inspection tools

About L-1 Identity Solutions Secure Credentialing Division

With over 6,500 systems in use in 20 countries, the Secure Credentialing Division of L-1 protects and secures identities and assets by helping customers produce the most secure IDs available, from driver's licenses to passports.
