Empowering Identification™

## New electronic submissions capability opens the door for tremendous time savings and cost reductions

The National Indian Gaming Commission (NIGC) is now accepting electronic fingerprint submissions for the job applicant background check process for its casinos.

This means faster turnaround time for background check results. With electronic fingerprint submission, waiting time for screening results is significantly reduced. Casinos can get results in as little as one or two days, as opposed to waiting three to four months with inked submissions.

Getting your results faster arms you with the information to make fast and accurate hiring decisions. For casino hiring managers, it's like hitting the jackpot in time and cost savings.

### THE TRUSTED SOURCE FOR ELECTRONIC FINGERPRINTING

Electronic fingerprint submission via a live scan device is the easiest and fastest way for casinos to perform background checks. Casino owners have two choices for transitioning from an ink-and-paper system to electronic fingerprint submission.

### BUY YOUR OWN DEVICE OR OUTSOURCE TO IDENTIX

You can purchase your own live scan device for your facility or you can outsource fingerprinting to an identification services company. Either way, Identix—the biometrics company trusted by government agencies, law enforcement and other large enterprises for superior identification solutions—can provide the right solution for you.

## BUY AN IDENTIX® LIVE SCAN DEVICE...

### In-House Electronic Fingerprinting Solutions

#### IDENTIX® TOUCHPRINT™ 3100 LIVE SCAN TERMINAL

Uniquely designed for superior performance, the TouchPrint™ 3100 Live Scan Terminal makes it easy for operators to capture fingerprint images and get background check submission results quickly and accurately.

### System Benefits

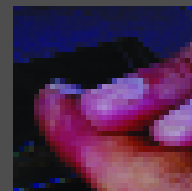

**EXCEEDS APPENDIX F CERTIFICATION:**  
State-of-the-art optics ignore water, dirt, oil, residue and latent prints left behind on the platen

**LESS OPERATOR MAINTENANCE:**  
No calibration required and no need to clean the platen as often as other live scan devices

**NO EXTENSIVE TRAINING REQUIRED:**  
Intuitive menu guide operator every step of the way

**EASY FINGERPRINT CAPTURE:**  
Single, large platen works with any size fingers—even wet or sweaty fingers

**AVAILABLE IN MULTIPLE CONFIGURATION OPTIONS:**  
Select between desktop or transportable configuration

### THE INDUSTRY'S MOST RELIABLE AND EASIEST-TO-USE SYSTEMS

Our patented, state-of-the-art live scan systems are FBI Appendix F-certified and capable of capturing, storing and transmitting high-quality fingerprint images. High-quality imagery helps ensure you get the correct results the first time you submit, making the applicant background check process easier to manage by nearly eliminating rejections.

### ONSITE AND OFFSITE COST-EFFECTIVE OUTSOURCING

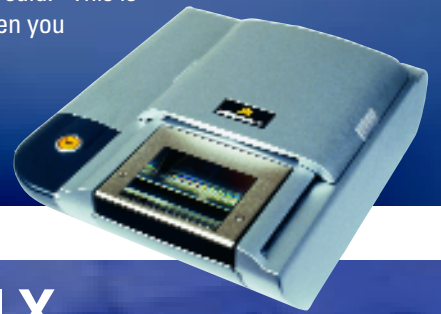

Identix Identification Services (IIS) is a recognized leader in electronic fingerprinting services. IIS provides applicant scheduling, Identix® live scan equipment, trained fingerprint capture technicians, results processing and reporting to meet your civil applicant background screening needs.

## What Customers Say

### THE LIVE SCAN SYSTEM AT WORK

Customers who have switched from ink and cards to electronic submission have seen their rejection rates plummet. Using Identix live scan technology, the Viejas Tribal Gaming Commission was the first commission in the country to successfully transmit digital fingerprints to the FBI through the NIGC and receive criminal history records.

Viejas Tribal Gaming Commission IT Administrator James McClain was elated with the results. "This system allows you to eliminate potential problems from prospective employees before they become costly," he said. "This is especially satisfying when you are trying to protect Tribal assets."

## ...OR OUTSOURCE TO IDENTIX

### Many Options for Affordable Outsourcing

#### IDENTIX IDENTIFICATION SERVICES

Identix Identification Services give you the flexibility to outsource your electronic fingerprint processing if investing in your own live scan device and personnel is not your preference. IIS makes the background check process a pleasant experience for applicants by providing a clean, safe and convenient environment for fingerprinting. With more than 200 branches in key locations and onsite processing capabilities, we have extensive experience in providing background check services to the civilian and commercial markets.

### Outsourcing Benefits

#### FASTER RESULTS:

Get results in as little as two to three days, as opposed to waiting months to get background check response

#### CERTIFIED TECHNICIANS:

Well-trained and highly qualified staff do it right the first time, so there are fewer AFIS rejections

#### CUSTOMIZED REPORTS:

Management reports help to coordinate and track all of your background checks, document fee collections and much more

#### COMPLETE PROCESSING:

We provide everything you need to complete fast and accurate background checks from start to finish for one low transaction fee

#### EASY SCHEDULING:

Appointments are scheduled via a toll-free number

#### LOW COST:

Affordable prices, plus flexible payment and fee collection options offer convenience for both applicants and employers

## ABOUT IDENTIX

Identix Incorporated (Nasdaq:IDNX) is the world's leading multi-biometric technology company. Identix provides fingerprint, facial and skin biometric technologies, as well as systems, and critical system components that empower the identification of individuals in large-scale ID and ID management programs. The Company's offerings include live scan systems and services for biometric data capture, mobile systems for on-the-spot ID, and backend standards-based modules and software components for biometric matching and data mining. Identix products are used to conduct background checks, speed travel and commerce via secure identification documents, prevent identity fraud in large-scale government and civil ID programs, and control access to secure areas and networks. With a global network of partners, such as leading system integrators, defense prime contractors and OEMs, Identix serves a broad range of markets including government, law enforcement, gaming, finance, travel, transportation, corporate enterprise and healthcare.
